Prof Saif Benjaafar advises companies around the world on improving engineering systems design.

Now, our students can seek his advice on a daily basis.

Professor Saif Benjaafar
Head of Pillar,
Engineering Systems and Design (ESD)

Prof Saif Benjaafar is an expert in supply chain management with a focus on reducing our environmental footprint. Committed to turning SUTD into a leading institution in the field of technology and design, he will develop its ESD programme and lead students to excel in the industry and the world.
